Abstract

This project report entitled to “A study on “General Banking and Financial Performance of MTBL”” at Finance. The main objective of the study is to analyze the financial position of the company. It the process of identifying the financial strength and weakness of the firm properly establishing relationship between the item of balance sheet and profit and loss account. The details regarding the history and finance details of the bank were collected through discussion with the company officers.

Secondary data are based on the annual reports of 2019-2020. The various tools used for the study are ratio analysis, fund flow statement and cash flow statement. Charts and table are used for better understanding. Through ratio analysis the company could understand the Profitability, Liquidity, Leverage, Turnover positions of the company.

The bank is following high debt equity and also the bank followed the credit enjoyed from its supplier has also nearly one year period of time. On the other hand, cash turnover also not sufficient to healthy the business. The study recommends to reducing the dept capital and providing security to creditors and to increase the sales to reduce the loss of the bank.
